[XRUSH] RESPONSE: The original filed specification contains 229 pages.  
The text ends on p.123 + p.124-229 are sequence lists. The amend.  
to the specification includes the amendment to the sequence listings filed  
as part of the specification as originally filed, on pp.213-219. It  
should be noted, the amendment to the sequences is NOT an amendment  
to the "Sequence Listing" as such and should not be treated as such.  
This is NOT a TC Error.
